Aetna Better Health® of Kansas

Clinical Payment, Coding and Policy Changes

We regularly augment our clinical, payment and coding policy positions as part of our ongoing policy review processes. In an effort to keep our providers informed, please see the below communication of upcoming new policies.

Effective for dates of service beginning August 25, 2020

Ophthalmology Services Policy

According to Kansas Medicaid Vision guidelines, Visual field examinations (92081-92083) and Laser scanning (92132-92134) are not allowed on the same date of service.

Visual field testing to establish a diagnosis, monitor a course of treatment, or determine if a change in therapeutic plan is necessary because of a progression of a disease.

Laser scanning is appropriate to follow preglaucoma patients or those with mild damage.

Patients with moderate damage may be followed with either scanning **or** visual field testing. Using scanning **and** visual field testing is not allowed.
