Dear Provider,

As part of Aetna's contract with the Michigan Department of Health and Human Services (MDHHS), we are expanding on our promise to deliver Michigan residents equitable, coordinated, and whole-person centered care through the coverage of newly-available benefits that address members' health-related social needs.

The new benefits to be offered are called *in-lieu of services* or **ILOS** for short.

ILOS are medically appropriate and cost-effective services that Medicaid Health Plans (MHPs) - like Aetna - can provide to Medicaid members in Michigan with the goal of reducing the need for other more costly services.

Effective June 1, 2025, Aetna Better Health of Michigan will introduce four (4) nutrition-focused ILOS to qualifying members in all four of service areas:

- Medically Tailored Home Delivered Meal
- Healthy Home Delivered Meal
- Healthy Food Pack
- Produce Prescription

For more information on each of these services and member eligibility criteria please follow link provided below.
