

## Program Eligibility Screening Tool

### NJ FamilyCare Community Based Palliative Care

Palliative care is extra support for people with serious illnesses. It helps manage symptoms, reduce stress, and works alongside other treatments. An interdisciplinary care team (IDT) listens to what matters to the member and supports their choices—so they can focus on quality of life.

The Community Based Palliative Care (CBPC) benefit provides team-based support for people with serious disease and helps members manage symptoms and navigate the care system. CBPC is not hospice care. Members do not need a terminal diagnosis to receive services and may continue curative or disease-directed treatments while enrolled in the benefit.

### Guidance

This screening tool supports identification and referral of members who may benefit from Community-Based Palliative Care (CBPC). Completion of this form does not determine eligibility and does not replace the Comprehensive Medical Assessment Tool (CMAT).

This form may be completed by providers, care managers, members, caregivers, or other community partners using available information about serious illness and quality-of-life impacts. If screening indicates potential eligibility, submit the completed form to the member's health plan via their MCO's Provider Portal (for FFS members, scan and email to [MAHS.CBPC@dhs.nj.gov](mailto:MAHS.CBPC@dhs.nj.gov)) or to an in-network palliative care provider. Providers should also store the screener in the member's electronic health record.

## General Guidance

- Use legible handwriting or fill electronically
- Complete all fields, using 'N/A' where applicable
- Attach any relevant clinical notes or supporting documentation
- Ensure timely submission to avoid care delays
- If you have questions about form completion, contact [MAHS.CBPC@dhs.nj.gov](mailto:MAHS.CBPC@dhs.nj.gov)

## Section-by-Section Guidance

### SECTION A: REFERRAL INFORMATION

- Provide information about the person completing the form and any recommended palliative care provider, if known

### SECTION B: MEMBER DEMOGRAPHICS

- Enter member demographic, contact, language, and consent information

### SECTION C: PRIMARY CARE PHYSICIAN INFORMATION

- Provide the member's primary care provider name and contact information to support care coordination

### SECTION D: ELIGIBILITY SCREENING FORM

- Indicate whether the member has a serious illness, whether it is affecting quality of life, and briefly describe the primary need prompting this screening

### SECTION E: SUBMITTING THE COMPLETED FORM

- Submit the completed screening to the member's health plan via their MCO's provider portal (for FFS members, scan and email to [MAHS.CBPC@dhs.nj.gov](mailto:MAHS.CBPC@dhs.nj.gov)) or to an in-network palliative care provider to support referral for an initial Comprehensive Medical Assessment and potential entry into the CBPC benefit. Providers should also store the screener in the member's electronic health record.
