

Eviti Recommended Formulary Redirection

Effective **March 5, 2023**, there will be a change in Eviti for some oncology treatment plans submitted to Aetna Better Health® of New Jersey. You may begin to see formulary redirection screens, like the one below, advising of the health plan preferred formulary medication.

This message is to alert you that if the non-preferred drug is selected, the treatment plan will require additional review of the Eviti medical team and will not receive an automatic Eviti Code. You can:

- **Select** one of the preferred medications in the list by clicking on the drug name, or
- **Accept** this warning message and continue with the treatment entry, or
- **Cancel** the request and submit the treatment with the preferred formulary drug

If you have any questions regarding this change, please contact Eviti Support at **888-482-8057** or via email at **clientsupport@nanthealth.com**.

Sincerely,
Shanise Williams
Director, Provider Relations
