

MSY

MSY Important Reminders

- ❖ When MSY funding out of home treatment is being requested, the application must include supporting documentation for this level of care (i.e. CANS assessment, clinical recommendation).
- ❖ Current and past interventions tried and/or attempted to support the youth/family, and the outcomes must be detailed in the MSY application.
- ❖ ALL financial resources explored/exhausted should be thoroughly detailed to include who, time frame (date range), the amount and why that funding is no longer available.
- ❖ MSY funding can be requested for up to 90 days but cannot exceed 90 days.
- ❖ **Provider per diem rates must be confirmed with the provider prior to application submission. If the per diem has increased since the last MSY application authorization, the provider must indicate the effective date of the new per diem and justification for the increase. If this is not received, MSY will only be considered at the previous rate.**
- ❖ MSY updates are due every 90 days. Failure to submit timely and complete updates will result in automatic denial of subsequent applications for additional or shifting funds.
