

# MSY

## MSY Application Signature Facts

- Parent/legal guardian initials, signature and date are ALWAYS required on the Release of Information. The Release of Information is only required once unless the parent/legal guardian provides a date to which their authorization ends and/or providers or organizations for the release are added or changed.
- CME Care Coordinator and parent/legal guardian initials, signature and date are required with any funding application request (e.g., initial, continued funding or shifting in funds request). Correct initials must be in the designated areas.
- When submitting an MSY update that is ONLY an update (i.e., final update), ONLY the signature/date from the CME Care Coordinator is required.

***MSY applications will not be reviewed & funding will not be considered if all required initials, signatures & dates are not present.***
