

TO: Contracted Medicaid Managed Care Organizations (MCOs)
Contracted OhioRISE Plan

FROM: Matt Hobbs, Chief, Office of Managed Care
Dawn Puster, Deputy Director, OhioRISE, Office of Strategic Initiatives

DATE: December 01, 2023

SUBJECT: OhioRISE Mixed Services Protocol January 2024 Update

Background

The Ohio Department of Medicaid (ODM) is issuing this memo to notify Managed Care Entities (MCE) of updates in the current version of the Ohio Resilience through Integrated Systems and Excellence (OhioRISE) Mixed Services Protocol. These changes are outlined below and will be effective January 1, 2024.

- The addition of diagnosis-related group (DRG) 817 and diagnosis code(s) related to suicide attempts and intentional self-harm to the behavioral health inpatient criteria.
- Updates to the Outpatient Hospital Services criteria due to solely reimbursing outpatient hospital services via the transition to Enhanced Ambulatory Patient Group (EAPG) methodology, and the sunsetting of the Outpatient Hospital Behavioral Health (OPHBH) reimbursement methodology.
- A section was added to clarify that Services of Autism Spectrum Disorder are not OhioRISE Plan covered services.

The next version of the OhioRISE Mixed Services Protocol is attached to this email and will be published on ODM's website (<https://managedcare.medicaid.ohio.gov/managed-care/ohiorise/06-community-and-provider-resources>) to reflect the changes in this memo. Please submit any questions related to the information in this memo to ohiorisepolicy@medicaid.ohio.gov.
