- This temporary supply will be for up to 30 days in an outpatient setting and 31 days in a long-term care facility. (To learn more about when you can get a temporary supply and how to ask for one, refer to Chapter 5 of the *Member Handbook*).
- When you get a temporary supply of a drug, you should talk with your doctor to decide what to do when your temporary supply runs out. You can either switch to a different drug covered by the plan or ask the plan to make an exception for you and cover your current drug.
- If your prescription is written for fewer days, we will allow multiple fills to provide up to a maximum of 30 days of medication in an outpatient setting and 31 days in a long-term care facility. You must fill the prescription at a network pharmacy.
- Long-term care pharmacies may provide your prescription drug in small amounts at a time to prevent waste.
- If you received a formulary exception for a drug you currently take, please see the letter that you received that gave permission for the exception. This letter will tell you if the exception continues after 2024. If it says your formulary exception will expire in or at the end of 2024, you will need to submit a new exception request for the drug for 2025 if its formulary status has not changed.
- You may review the 2025 comprehensive formulary on our website at **AetnaBetterHealth.com/Ohio** to see if the changes to it affect your drug. Please call Member Services at **1-855-364-0974 (TTY: 711)**, 24 hours a day, 7 days a week to request a formulary exception for 2025.

We currently can immediately remove a brand name drug on our Drug List if we replace it with a new generic drug version and with the same or fewer rules as the brand name drug it replaces. Also, when adding a new generic drug, we may also decide to keep the brand name drug on our Drug List, but immediately add new rules.

Starting in 2025, we can immediately replace original biological products with certain biosimilars. This means, for instance, if you are taking an original biological product that is being replaced by a biosimilar, you may not get notice of the change 30 days before we make it or get a month's supply of your original biological product at a network pharmacy. If you are taking the original biological product at the time we make the change, you will still get information on the specific change we made, but it may arrive after we make the change. Some of these drug types may be new to you. For definitions of drug types, please see Chapter 12 of your Member Handbook. The Food and Drug Administration (FDA) also provides consumer information on drugs. www.fda.gov/drugs/biosimilars/multimedia-education-materials-biosimilars#For%20Patients.
