

AETNA BETTER HEALTH®
Coverage Policy/Guideline

Name: Sodium oxybate

Page: 1 of 3

Effective Date: 7/20/2026

Last Review Date: 6/24/2026

Applies to: ☒ Maryland

Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for sodium oxybate under the patient's prescription drug benefit.

Description:

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met, and the member has no exclusions to the prescribed therapy.

FDA-Approved Indication

Treatment of cataplexy or excessive daytime sleepiness (EDS) in patients 7 years of age and older with narcolepsy.

All other indications are considered experimental/investigational and not medically necessary.

Applicable Drug List:

Sodium Oxybate

Policy/Guideline:

Documentation:

Submission of the following information is necessary to initiate the prior authorization review:

- A. Initial requests, all of the following (if applicable):
 - 1. Documentation of a sleep lab evaluation
 - 2. Chart notes, medical record documentation, or claims history supporting previous medications tried (if applicable), including response to therapy. If therapy is not advisable, documentation of clinical reason to avoid therapy
- B. Continuation requests, chart notes or medical record documentation supporting a beneficial response to therapy (e.g., decrease in daytime sleepiness, decrease in cataplexy episodes from baseline)

Prescriber Specialty:

This medication must be prescribed by or in consultation with a sleep specialist (e.g., neurologist experienced with sleep disorders, physician certified in sleep medicine).

Criteria for Initial Approval:

A. Excessive Daytime Sleepiness with Narcolepsy

Authorization of 12 months may be granted for treatment of excessive daytime sleepiness when ALL the following criteria are met:

Last Review Date: 6/24/2026

Applies to: ☒ Maryland

1. The member is 7 years of age or older
2. The diagnosis of narcolepsy is confirmed by a sleep lab evaluation

B. Cataplexy with Narcolepsy

Authorization of 12 months may be granted for treatment of cataplexy with narcolepsy when ALL the following criteria are met:

1. The member is 7 years of age or older
2. The diagnosis of narcolepsy is confirmed by a sleep lab evaluation
3. The member has a baseline history of at least 14 cataplexy attacks in a typical 2-week period

Continuation of Therapy:

A. Cataplexy with Narcolepsy

Authorization of 12 months may be granted for continued treatment of cataplexy with narcolepsy when the member has demonstrated beneficial response to treatment as defined by a decrease in cataplexy episodes from baseline.

B. Excessive Daytime Sleepiness with Narcolepsy

Authorization of 12 months may be granted for continued treatment of excessive daytime sleepiness (EDS) with narcolepsy when the member has demonstrated beneficial response to treatment as defined by a decrease in daytime sleepiness with narcolepsy from baseline.

Approval Duration and Quantity Restrictions:

Approval: 12 months

Quantity Level Limit:

Sodium oxybate 0.5 g/mL oral solution: 540 mL per 30 days
