Action for Program Providers and FMSAs

Program providers and FMSAs currently using DataLogic's Vesta EVV system are not required to take any action if they choose to continue using the Vesta EVV system.

Action is only required if program providers and FMSAs currently using DataLogic's Vesta EVV system wish to transfer to First Data's AuthentiCare EVV system.

When making the decision to transfer to a different EVV vendor, program providers and FMSAs are encouraged to:

- Research each EVV vendor and ask questions to learn more about their EVV vendor system, such as their clock in and clock out methods.
- Determine which EVV vendor system best fits their business needs.
- Identify how each EVV vendor will provide training on their EVV vendor system.

EVV Vendor Transfer Policy (2 of 3)

A request to transfer must be made 120 calendar days prior to the desired transfer date.

- The 120 days will ensure adequate time for data transfer, new system setup, training, and any other necessary transition activities.
- The transfer may occur sooner than 120 days if the program provider or FMISA and the EVV vendors agree on an earlier date.
- The effective transfer date will be the date the program provider or FMISA are ready to begin using the selected EVV vendor system.
