Aetna Better Health® of Virginia

Introducing Waymark's community-based care services available in the Richmond and Tidewater areas.

We're excited to share that, starting **January 2023**, Aetna Better Health of Virginia will begin collaborating with Waymark to provide community-based care services to our Medicaid members. Through this partnership, Aetna Better Health and Waymark will work with primary care practices across the greater Richmond and Tidewater areas to improve access and quality of care for Medicaid members.

Waymark's goal is to support your team by providing free community-based care to your Medicaid patients. They have a team of local community health workers, pharmacists, therapists and care coordinators and their services are completely covered by Aetna Better Health — **there's no cost to your practice or patients**. In addition, they support your practice by taking on administrative work such as prior authorizations, DME and social service forms.

To take advantage of Waymark's free services for your primary care practice, email providerpartnerships@waymarkcare.com.
